PROFILE SUMMARY

- Experienced and innovative Web Designer with a proven track record of creating visually appealing and highly functional websites that engage users and drive business growth. **With 3 years in the industry**, I possess a deep understanding of design principles, user experience (UX) best practices, and the latest web technologies. My passion for creating seamless online experiences is evident in my portfolio of successful projects for diverse clients across various industries.

Key Competencies:

- Front-end Development: Proficient in HTML5, CSS3, JavaScript, Bootstrap, React.js, and responsive design techniques, ensuring a consistent and user-friendly experience across devices.
- UI/UX Design: Skilled in creating intuitive and user-centered interfaces that prioritize usability, accessibility, and conversion optimization.
- Visual Design: A keen eye for aesthetics and a strong ability to translate concepts into captivating visual designs, using tools such as Adobe Creative Suite.
- Wireframing and Prototyping: Expertise in using tools like Sketch, Figma, and InVision to create interactive prototypes that effectively communicate design concepts.
- Collaboration: Proven ability to work closely with cross-functional teams, including developers, content creators, and project managers, to deliver projects on time and within scope.
- Trend Awareness: Continuously stay updated with the latest design trends, emerging technologies, and industry best practices to ensure designs are modern and forward-thinking.

Project Highlights

HPSCB KCC

- Collaborated with a multidisciplinary team to design the user interface for the Himachal Pradesh State Cooperative Bank's Kisan Credit Card (KCC) website.
- Created wireframes and interactive prototypes in Figma to visualize the user journey and ensure seamless navigation.
- Translated designs into responsive web pages using CSS, optimizing the user experience for both desktop and mobile users.

HPSCB Mobile Banking

- Designed the user interface for the HPSCB Mobile Banking app, ensuring an intuitive and efficient mobile banking experience.
- Developed detailed screen designs in Figma, focusing on ease of use, accessibility, and visual consistency.

HPSCB Internet Banking

- Collaborated with the development team to create user-friendly interfaces for the HPSCB Internet Banking platform.
- Produced comprehensive screen designs in Figma and translated them into HTML, contributing to a seamless and engaging online banking experience.

NCSPL ZOHO CRM

- Led the design efforts for the ZOHO CRM interface for NCSPL, focusing on improving user interaction and data visualization.
- Designed screens in Figma to enhance the user experience and streamline the customer relationship management process.

Godlevel

- Designed an innovative and user-friendly search page for the Godlevel platform, aimed at improving search results and user engagement.
- Utilized Figma to create a visually appealing and functional search interface.

Joint Lending Group

- Collaborated with the Joint Landing Group to create a captivating landing page using Figma for design and React.js for front-end development.
- Integrated animations and interactive elements to enhance user engagement and convey the company's branding.

Jansamrth

- Developed screen designs for the Jansamrth project, focusing on delivering a user-centered experience for a diverse range of users.
- Leveraged Figma's collaborative features to refine the designs and ensure alignment with project goals.

Goalsecure

- Successfully redesigned all pages of the Goalsecure website, revitalizing the brand's online presence and improving user engagement.
- Implemented dynamic elements within the WordPress framework to enhance user interaction and site functionality.

These projects showcase my proficiency in design tools such as HTML, Bootstrap, React.js, Figma, CSS, and WordPress, as well as my ability to collaborate effectively with cross-functional teams to deliver exceptional web and mobile experiences. Each project highlights my commitment to user-centric design and my capacity to translate design concepts into tangible, impactful digital solutions.
